

Description

A specialised premium quality aluminium anti-seize grease. The product is a highly viscous compound which overcomes galling on assembly and reduces dismantling torque.

Features

- 1) Suitable for use up to 800⁰C
- 2) Corrosion Resistant
- 3) Chemical Resistant
- 4) Protects against Pitting
- 5) Fully Conductive

Applications

Suitable applications include pipe and valve fitting in the petrochemical industry, gas refinery and oil drilling equipment. The compound can also be used as an anti-friction and plain bearing lubricant particularly on kiln cars.
