

CLEAR WATERPROOFER

CLEAR - WATER PROOFER, a single pack coating, applied by brush or spray, for water proofing and sealing against ingress of moisture.

The material is easy to apply and is clear, to keep the look of stone or brickwork that may be over coated.

APPLICATION

Clean off all algae, fungus or dirt from surface, ensure surface is dry before application.

Apply brush or spray until surface is thoroughly wetted.

In various porous situations a second coat may be required.

USES

- *House walls*
- *Gable Ends*
- *Porous Brickwork*
- *Stone*
