

The Supermat is our premium and most popular mat for horse stables and other animal enclosures.

Available in thicknesses of 18mm & 22mm and used in our Bonded & Joint Sealed system.

Supermats are a very robust heavy duty rubber stable mat with a tensile strength of 4Mpa which makes them denser than any standard stable mats that are available.

The mats have a low profile 'Hammered' pattern on one side and a shallow grooved pattern on the other.

They can be fitted with either side to the top.

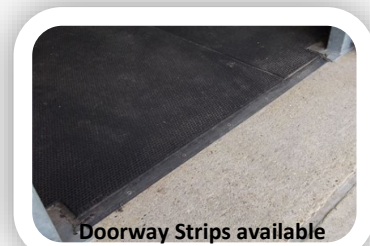

Great Insulation Properties. Less bedding needed = Less Cost. Easy to clean
